

GENAPOL 1585

DESCRIPTION : Natural alcohol block EO/PO Copolymer.

CHEMICAL COMPOSITION : Alkoxyated alcohol.

CHARACTERISTICS:

APPEARANCE [20°C] : Clear, colorless to pale yellow liquid

SPECIFIC GRAVITY[20°C] : Approximately 0.97

IODINE NUMBER : 1

**CLOUD POINT
(°C, 1% IN DMW)** : 32 – 37

APPLICATION:

Genapol 1585 is a general purpose low foam nonionic surfactant that can be used where low foam and high speed wetting are required. Genapol 1585 is especially useful for formulating low foam metal and hard surface cleaning products.
