

MASSOCARE range: ISONONANOATES

This **Massocare range** has been designed to enhanced the feel and the elegance of personal care preparations.

ISONONANOATES is a line of **colorless, odorless, high purity** branched ester emollients to moisturize and provide a superior non-oily feel. They are non-comedogenic, non-irritating and stable over a wide range of temperatures, pH and oxidation conditions. Versatile over a wide range of products, this Massocare Isononanoates add **emolliency, spreadability** and an **enhanced elegant skin feel** in formulations.

Where the ingredients of the **Massocare Isononanoates range** differ is in their **suitability for any application**. Thanks to their specific physical and cosmetic properties, these ingredients are ideally suited for any skin care and hair care applications.

MASSOCARE range: ISONONANOATES

MASSOCARE ININ

DESCRIPTION

Massocare ININ is a skin conditioning emollient that leaves a silky feeling on the skin. It can be incorporated into the formulations to give excellent spreadability, which in turn leads to a lighter product on the skin. This fantastic emollient won't give a sticky, greasy or waxy after feel to the products, making it a pleasure to use. It has very quick absorption, leaves no shine and produces a velvety after feel. It is also non-occlusive and has good solvent properties, ideal for improving the feel of any kind of formulations.

INCI NAME

Isononyl Isononanoate

PRODUCT SUMMARY

- ⇒ **Physical appearance:** Colourless liquid
- ⇒ **Function:** Emollient, skin conditioning, solvent
- ⇒ **Applications:** All purpose skin & hair care formulations
- ⇒ **Use level:** From 1.0% on

FEATURES & BENEFITS

Light and dry skin feel
Compatible with anionic, nonionic and cationic ingredients
Light spreading
Non-occlusive
Medium polar oil
Easy to handle
Cold process compatible
Water resistance improvement
Odor free
Vegetable derived
Biodegradable

MASSOCARE range: ISONONANOATES

MASSOCARE CI

DESCRIPTION

Massocare MCI is a cosmetic oil with hydrophobic properties that forms a pleasant emollient film on the skin. It provides a velvety skin feel and non-oily quality to skin care creams and lotions. It is compatible with anionic, nonionic and cationic ingredients and is a good solvent for lipophilic active ingredients. It is stable over the pH range normally encountered in skin and hair care preparations.

INCI NAME

Cetearyl Isononanoate

PRODUCT SUMMARY

- ⇒ **Physical appearance:** Colourless liquid
- ⇒ **Function:** Emollient, moisturiser
- ⇒ **Applications:** All purpose skin & hair care formulations
- ⇒ **Use level:** From 1.0% on

FEATURES & BENEFITS

- Exceptional skin feel
- Light after feel
- Good spreading properties
- Non-occlusive
- Medium polar oil
- Good solubilizer for active ingredients
- Film former
- Miscible with all cosmetic oils
- Easy to handle
- Odor free
- Vegetable derived
- Biodegradable
