

MASSOCARE PEL64

DESCRIPTION

MASSOCARE PEL is a Polyethylene oxide and Polypropylene oxide copolymer. It is a **non-ionic surfactant**. Its main application is as a mild cleanser but it also has solubilising, o/w emulsifying, dispersing and wetting properties.

INCI NAME

Poloxamer 184

PRODUCT SUMMARY

- **Physical appearance:** clear to hazy liquid/gel
- **Function:** non-ionic surfactant, o/w emulsifier, dispersant and wetting agent
- **Applications:** mild cleansers, make-up & eye removers, skin toners and wet wipes
- **Use Level:** 5.0% - 10.0%

FEATURES & BENEFITS

- Water soluble surfactant: allows to formulate **clear systems** with low oil content.
- **Very mild** surfactant: preserves skin's natural sebum.
- Forms **micellar structures**: allows oils, make-up residues and dirt to be rinsed off.
- **Low irritancy** profile: ideal for sensitive skins and eye cleansers.
- **Compatible with cationic substances** such as Polyaminopropyl biguanide and Chlorhexidine diglutamate.
